

Create an account with ACER at <https://teacheredreg.acer.edu.au> to register for the test.

Log in to your ACER candidate account and during the registration process select "Remote Proctoring" from the test centre drop-down list.

Go to <https://www.proctoru.com/tech-requirements/> and read all the information about minimum and recommended requirements.

Go to www.proctoru.com/testitout/ to have your equipment tested

Does your equipment meet all 6 checks?

You have 2 options:

- Try from a different computer
- Register for a session in a test centre

Enter your name and the institution (Australian Council for Educational Research), and click "Connect to a live person"

Request that a ProctorU Help Desk technician fully test your computer.

Does your equipment pass all checks?

Complete your ACER registration at <https://teacheredreg.acer.edu.au>

Receive a registration confirmation email from ACER

Download and install the ACER online test application from your candidate account

Go to <https://go.proctoru.com/session/new>

Create a test taker account. Note: you must use the same email address that you used for your registration with ACER. Select "Australian Council for Educational Research" as your institution.

Book a test session
